Brainery School Management System is an award winning software application designed to help users manage their educational institution (school, college or university) from day to day operations. Brainery School Management System has been developed for managing educational institutions and facilitates users to get to grips with the

operations of a school or college in one comprehensive, user-friendly interface. Some of the features offered by the Brainersy School Management System:

- Students and Parents
- Attendance
- Teaching and Learning
- Fee Overdues
- Grants Management System
- TAFE
- Communication and administration
- Examination and Results System
- Extracurricular activities

Library and School Resource Centre · Schedules · Class management · External system integration · Management Module In addition to the above, Brainerly School Management System allows you to create timetables, grade and results, manage parents, teachers and other staff, report card generation, inventory management and so on. Brainerly IAS (Individual

Academic Success) is an individual achievement-based assessment tool which supports teachers and schools to develop an inclusive curriculum to help all students achieve success and to build a positive school culture.

Brainery IAS offers a comprehensive and engaging assessment system. Teachers and parents can create individual student profiles to monitor student progress

throughout the school year. Students gain detailed feedback for each assessment as well as in-depth information about their learning strengths and areas for improvement. A success story is shared with the student and their parents to help motivate them for success. An optional Parent Feedback tool allows parents to interact and provide further information, enabling ongoing communication between the

family and the school. Key features:

- Supports customised assessment and report card that can be provided to parents and students
- Fully mobile to encourage a mobile learning approach
- Intuitive format for students and teachers
- Supports multiple users - students, parents and teachers
- Easy, interactive and engaging
- Graphical bar chart to display student

progress · Real-time performance review with success stories · Individual student profiles for all students · Optional parent feedback to allow parents to be involved in their child's progress · Unique student tracking throughout the year · IAS dashboard to view and report on student progress and success stories · Ability to export student profiles for extra support · Student can create and share

to his social media channels .
Students can request a report
card . Parents can view their
child's report card . Parents
can purchase digital report
cards •Optional Fee collection
