The Tarnished As you traverse the Lands Between, a mysterious, evil force threatens to erase the Elden and the balance that the Ring has established. To prevent this, you will need to find and rescue the six Guardians entrusted to the Ring. To master the Sword Art Online series' weapons, AI, techniques and motor skills, you need to perform hand to hand combat. But your opponents aren't just like you, and there are situations where you might need to rapidly move or dodge. To master the Sword Art Online series' weapons, AI, techniques and motor skills, you need to perform hand to hand combat. But your opponents aren't just like you, and there are situations where you might need to rapidly move or dodge. When you defeat other players, you can collect the rewards and weapons you need to complete missions. If you become a member of the Guardian's Guild, you'll be able to find others who need your help, and together you'll be able to use special quests for more powerful weapons and items. DASH You won't be traveling alone, as the guild members are also able to help you out. For example, a Guild Member can act as a tank, while another can attack your enemies. You won't be traveling alone, as the guild members are also able to help you out. For example, a Guild Member can act as a tank, while another can attack your enemies. Guild Members The Guild members are divided into several categories based on their respective attributes and strength. Using the Assistant application, you can designate a Guild Member as your assistant, who will follow you around and help you defeat enemies. ATTACKS AND COMBAT Navi A large field in which you can attack enemies. Items As they enter battle, you can use items. To use an item, tap the relevant icon (you can learn more about the items you can use on the equipment screen). In addition to the normal options, you can now use some of the properties of the equipment. If you equip a set of armor with a shield, you will be able to increase your strength of attack with the shield. Combo You can use the regular attacks used by members of the Sword Art Online series, such as a Standard Attack, an Overhead Attack, and a Guard Break.

Elden Ring Features Key:

Seven Classes!

- Warrior - A classic warrior, capable of harnessing the physical strength of various weaponry to unleash immense force during battle.
- Warpriest - A priest that guides and provides solace for fallen warriors.
- Assassin - An Egyptian-esque type with long blades and stealthy attacks.
- Tempest - A Nubian stealth type that smashes through a lock and magically magnifies the edge of the weapon.
- The Infamous Meister - An NPC who was once an adventurer performing day-to-day activities. Through his death, someone imbued him with the innate power of becoming legendary and became his servant.

- Decorated Knight – As an independent type, you can customize its appearance greatly. The Knight is a proud warrior whose confident presence commands the battlefield.
- Rajio – A female tengu type with hoo-hoo and infernal power that savagely rules the Shinobazu Shrine. She wandered into the Lands Between and became as a man-eating monster.

Deathgun – A weapon with a powerful shot power that reduces the damage of the hit upon using it, while absorbing the attack power of their enemies.
