MotioninJoy 060003 Amd64 Signed (1).zipQ: Stop/start pump during in-app purchase I have a pump that needs to operate based on user action in my app (by connecting to a bluetooth transmitter). I can't use subscriptions because the user would need to turn on the pump to get the benefit. How would I stop/start the pump based on user action (like tapping a button, etc.)? A: Just call the start or stop methods for your pump. You can start and stop pumping while the PumpingState is Pumping: [pump start]; //OR [pump stop]; In terms of your user action, you should certainly be able to figure that out. If you tap a button, that would mean a user has completed a transaction. Q: Are there

distinct ways to get General Relativity in 2d? There is a series of lectures on GR by Jeffrey Goldstone (USC, 2016) starting at 65:00, and a discussion on youtube starting at 1:01:24. Given this series of lectures and topic of discussion, I believe that the following table is generally true:

Underlying theory	&	Two-dimensional context
General Relativity	&	Relativistic fluid dynamics
In three spacetime dimensions	&	Fluid dynamics with a fixed spacetime metric
In four spacetime dimensions	&	M 0cc13bf012
